PERS-SYS

THE PERSONNEL RECORD MANAGEMENT SYSTEM FOR MICROSOFT WINDOWS

This leaflet describes the key features of PERS-SYS, the Personnel Record Management System which helps small businesses, educational establishments and other employers organise and record the information about their employees.

PERS-SYS is a Microsoft Windows (version XP to Win10, **32 bit only** - not 64 bit) compatible product, running either on a standalone PC or on a network. The minimum requirements to run RMSys are such that almost any PC sold in the last 10 years will be sufficient.

PERS-SYS was first created for MS-DOS in 1986. After it had been in use for more than six years, it was replaced in 1992 by the first MS-Windows version.

PERS-SYS can model the Human Resource aspects of your entire business, including your departments, sections and managers, your employees with full personal details, addresses, nexts-of-kin, job records, and of course annual leave and sickness records, as well as qualification, training, skill, and other user-defined attributes.

A powerful "Analyse and Print" dialogue allows you to interrogate PERS-SYS to obtain just the details you need on any subset of employees, for your reporting and documentation requirements.

To find out more about this useful product, and to see how you might use it in your business, read on ...

PERS-SYS: An Outline

PERS-SYS stores the following user-definable types of information:

- Departments** e.g. Finance, Production, Sales. Up to 990 definable.
 - Sections** of departments, (each with a Manager), up to 990 definable.
 - Qualifications** up to 990 definable. Can be very flexibly defined to allow all kinds of employee attribute to be recorded.
 - Job Titles** up to 990 definable, each with a range of characteristics.
 - Sickness Reasons** up to 990 definable, each with an authorisation status.
 - Employees** details of up to 3,000 current employees. Each can have any number of addresses, qualifications, job records, NoK records, and annual and sick leave records.
 - Addresses** up to 9,000 addresses can be current at any time.
 - Nexts-of-Kin** up to 9,000 next-of-kin records can be current at any time.
 - Annual Leave** up to 30,000 annual leave records can be held each year.
 - Sickness Absences** up to 30,000 sickness leave records can be held each year.
- Historical details (those from previous years or periods) of all the above are available on-line, up to the capacity of your hard disc.
